

Seoul International Digestive Disease Symposium 2024

In Conjunction with the Annual Meeting of the Korean Society of Gastroenterology

April 20-21, 2024
Grand Walkerhill Seoul, Korea

“Pioneering the future of digestive diseases”

SIDDS 2024

Name	Yoon Suk, Lee
Affiliation	Inje University Ilsan Paik Hospital
Country	South Korea
Major Field	Pancreatobiliary Diseases

Educational Background

2019 PhD (Course Completion), Graduate School, Seoul National University
 2015 MSc, Graduate School, Seoul National University
 2004 BS, College of Medicine, Dongguk University

Professional Experience

2021- present; Associate Professor, Ilsan Paik Hospital, Inje University College of Medicine
 2017- 2021; Assistant Professor, Ilsan Paik Hospital, Inje University College of Medicine
 2015- 2017; Assistant Professor, Keimyung University College of Medicine

Main Scientific Publications

1. Long-term outcomes of endoscopic papillectomy for ampullary adenoma with high-grade dysplasia or adenocarcinoma: a propensity score-matched analysis. *Surgical Endoscopy* 2023;37:3522-3530.
2. National Survey Regarding the Management of Difficult Bile Duct Stones in South Korea. *Gut and Liver* 2023;17(3):475-481.
3. Adjuvant Chemotherapy and Effect on Long-Term Survival in Ampullary Adenocarcinoma: A Multicenter Cohort Study. *J Am Coll Surg* 2023;237(3):501-512.
4. Role of EUS at high risk for choledocholithiasis without severe cholangitis and visible stone on cross-sectional imaging: A multicenter randomized clinical trial. *Endoscopic Ultrasound* 2021;10(6):455-462
5. Pharmacoefficacy of FOLFIRINOX versus gemcitabine plus nab-paclitaxel in metastatic pancreatic cancer: a systematic review and meta-analysis. *Scientific Reports* 2021;11(1):20153.
6. Efficacy of an internal anchoring of an internal anchoring plastic stent to prevent migration of fully covered metal stent in malignant distal biliary strictures: a randomized controlled study. *Endoscopy* 2021;53(6):578-585.
7. Impact of Hospital Volume and the Experience of the Endoscopist on Adverse Events Related to Endoscopic Retrograde Cholangiopancreatography: A Prospective Observational Study. *Gut and liver* 2020;14(2):257-264
8. Neoadjuvant therapy versus upfront surgery in resectable pancreatic cancer according to intention-to-treat and per-protocol analysis: A systematic review and meta-analysis. *Scientific Reports* 2019; 9(1):15662.
9. A National Survey on the Environment and Basic Techniques of Endoscopic Retrograde Cholangiopancreatography in Korea. *Gut and liver* 2021;15(6):904-911.
10. Difficult Biliary Cannulation from the Perspective of Post-Endoscopic Retrograde
