

Seoul International Digestive Disease Symposium 2025

In Conjunction with the Annual Meeting of the Korean Society of Gastroenterology

April 19-20, 2025 | Swiss Grand Hotel Seoul, Korea

SIDDS 2025

Frontiers in Digestive Research and Practice

Name	Kee Wook Jung
Affiliation	Department of Gastroenterology, Asan Medical Center, University of Ulsan College of Medicine, Seoul, Korea
Country	South Korea
Major Field	Neurogastroenterology and Motility disorder

Educational Background

August 2004-August 2008 Ph.D, Gyeongsang National University, Postgraduate College of Medicine, Gyeongnam, South Korea
March 1999-August 2001 Master of Internal Medicine, Gyeongsang National University, Postgraduate College of Medicine, Gyeongnam, South Korea
March 1991-February 1997 Bachelor of Medicine, Gyeongsang National University, College of Medicine, Gyeongnam, South Korea

Professional Experience

March 2019-Present Clinical Professor of Gastroenterology, Asan Medical Center, Seoul, South Korea
September 2012-February 2019 Clinical Associate Professor of Gastroenterology, Asan Medical Center, Seoul, South Korea
July 2010-August 2012 Clinical Assistant Professor of Gastroenterology, Asan Medical Center, Seoul, South Korea
July 2009-June 2010 Advanced Esophageal Fellow (clinical), Mayo Clinic, Rochester, MN, USA
March 2006-February 2008 Clinical Fellowship of Gastroenterology, Asan Medical Center, Seoul, South Korea

Main Scientific Publications

1. Validation of the London Classification for Rectal Hyposensitivity in an Anorectal Manometry Database of 2540 Patients with Functional Defecatory Disorder. *J Neurogastroenterol Motil.* 2025 in press
2. Additional Diagnostic Yield of the Rapid Drink Challenge in Chicago Classification Version 4.0 Compared With Version 3.0. *J Neurogastroenterol Motil.* 2024 Oct 30;30(4):453-458
3. Optimal Diagnostic and Treatment Response Threshold of the Eosinophilic Esophagitis Endoscopic Reference Score: A Single-Center Study of 102 Patients With Eosinophilic Esophagitis. *J Neurogastroenterol Motil.* 2024 Oct 30;30(4):430-436.
4. Role of endoscopy in eosinophilic esophagitis. *Clin Endosc.* 2024 Jul 5. doi: 10.5946
5. Retrograde Cricopharyngeus Dysfunction: Inability of Belch Due to Upper Esophageal Sphincter Relaxation Failure. *J Neurogastroenterol Motil.* 2024 Apr 30;30(2):123-124.

Frontiers in Digestive Research and Practice

Main Scientific Publications

6. Dysphagia associated with esophageal wall thickening in patients with nonspecific high-resolution manometry findings: Understanding motility beyond the Chicago classification version 4.0. *Neurogastroenterol Motil.* 2024 Apr;36(4):e14736.
7. Comparison of Diagnosis of Esophageal Motility Disorders by Chicago Classification Versions 3.0 and 4.0. *J Neurogastroenterol Motil.* 2023. 30;29(3):326-334
8. Adult-onset megacolon with focal hypoganglionosis: A detailed phenotyping and prospective cohort study. *Neurogastroenterol Motil.* 2023;35(9):e14630
9. Incidence, Morbidity, and Mortality of Achalasia: A Nationwide, Population-Based Cohort Study in South Korea. *Gut Liver.* 2023. 15;17(6):894-904
10. Predicting Responsiveness to Biofeedback Therapy Using High-resolution Anorectal Manometry With Integrated Pressurized Volume. *J Neurogastroenterol Motil.* 2022 30;28(4):608-617
11. The Clinical Usefulness of Functional Luminal Imaging Probe in Esophageal Dysmotility Disorder. *J Neurogastroenterol Motil.* 2022. 30;28(4):509-511
12. High-resolution impedance manometry for comparing bolus transit between patients with non-obstructive dysphagia and asymptomatic controls. *Neurogastroenterol Motil.* 2022. 23:e14452
13. The Predictive Value of Intraoperative Esophageal Functional Luminal Imaging Probe Panometry in Patients With Achalasia Undergoing Peroral Endoscopic Myotomy: A Single-center Experience. *J Neurogastroenterol Motil.* 2022. 30;28(3):474-482
14. An Asian perspective on irritable bowel syndrome. *Intest Res.* 2023;21(2):189-195
15. A Case of Sprue-like Enteropathy Associated With Valsartan and Irbesartan. *J Neurogastroenterol Motil.* 2022 30;28(2):327-329
16. Long-Term Risks of Parkinson's Disease, Surgery, and Colorectal Cancer in Patients With Slow-Transit Constipation. *Clin Gastroenterol Hepatol.* 2021;19(12):2577-2586
17. Chicago Classification Update (v4.0): Technical review on diagnostic criteria for distal esophageal spasm. *Neurogastroenterol Motil.* 2021;33(5):e14119.
18. New parameter for quantifying bolus transit with high-resolution impedance manometry: A comparison with simultaneous esophagogram *Neurogastroenterol Motil.* 2020;32(7):e13847
19. Esophageal motility disorders on high-resolution manometry: Chicago classification version 4.0© *Neurogastroenterol Motil.* 2021;33(1):e14058.
20. 20. The international anorectal physiology working group (IAPWG) recommendations: Standardized testing protocol and the London classification for disorders of anorectal function. *Neurogastroenterol Motil.* 2020;32(1):e136792.
