

<b>Name</b>	Hyun Lim
<b>Affiliation</b>	Div. of Gastroenterology & Hepatology, Dept. of Internal Medicine, College of Medicine, Hallym University, Hallym University Sacred Heart Hospital
<b>Country</b>	Korea
<b>Major Field</b>	Upper GI disease, Therapeutic endoscopy

<b>Educational Background</b>
1997-2003 M.D., Chonbuk National University Medical School, Jeonju, Korea
2010-2012 M.S. (Gastroenterology), University of Ulsan College of Medicine, Ulsan, Korea
2014-2018 Ph.D. (Gastroenterology), University of Ulsan College of Medicine, Ulsan, Korea

<b>Professional Experience</b>
2003-2004 Intern Trainee, Asan Medical Center, University of Ulsan College of Medicine, Seoul, Korea
2007-2011 Resident Trainee in Internal Medicine, Asan Medical Center, University of Ulsan College of Medicine, Seoul, Korea
2011-2013 Post-Doctoral Fellow, Division of Gastroenterology , Asan Medical Center, University of Ulsan College of Medicine, Seoul, Korea
2013-2014 Full time instructor, Division of Gastroenterology , Asan Medical Center, University of Ulsan College of Medicine, Seoul, Korea
2014-2018 Assistant Professor, Dept. of Gastroenterology, College of Medicine, Hallym University, Korea
2019-2023 Associate Professor, Dept. of Gastroenterology, College of Medicine, Hallym University, Korea
2024-present Professor, Dept. of Gastroenterology, College of Medicine, Hallym University, Korea

## Main Scientific Publications

1. Comparison of rebamipide and tegoprazan combination therapy and tegoprazan monotherapy for ESD induced gastric ulcers a randomized multicenter study. *Sci Rep.* 2025 Jul 25;15(1):27127.
2. Evaluation of the Efficacy and Safety of a Dual Delayed-Release Formulation of 10-mg Esomeprazole in Patients with Gastric Erosions: A Multicenter, Randomized, Double-Blind, Active-Control, Phase III Study. *Gut Liver.* 2025 Jul 15;19(4):519-527.
3. Efficacy and Safety of Dual Delayed-Release Formulation of Esomeprazole in Patients with Gastroesophageal Reflux Disease: A Multicenter, Prospective, Observational Study. *Korean J Gastroenterol.* 2025 Jan 25;85(1):44-51.
4. Treatment Strategies for Gastric Cancer Patients with Gastric Outlet Obstruction. *Korean J Gastroenterol.* 2024 Jul 25;84(1):3-8.
5. Efficacy comparison of 7- and 14-day P-CAB based bismuth-containing quadruple regimen with PPI based bismuth-containing quadruple regimen for *Helicobacter pylori* infection: rationale and design of an open-label, multicenter, randomized controlled trial. *BMC Gastroenterol.* 2023 Dec 21;23(1):453
6. Efficacy and safety of HIP1601 (dual delayed-release esomeprazole) 40 mg in erosive esophagitis compared to HGP1705 (delayed-release esomeprazole) 40 mg: a multicenter, randomized, double-blind, non-inferiority study. *BMC Gastroenterol.* 2023 Dec 18;23(1):447
7. Efficacy and Safety of ClearCut™ Knife H-type in Endoscopic Submucosal Dissection for Gastric Neoplasms: A Multicenter, Randomized Trial. *J Gastric Cancer.* 2023 Jul;23(3):451-461.
8. Chronic Periodontitis and the Potential Likelihood of Gastric Cancer: A Nested Case-Control Study in the Korean Population Utilizing a National Health Sample Cohort. *Cancers (Basel).* 2023 Aug 4;15(15):3974.
