Name	Young Jae Kim
Affiliation	Gachon Gil Medical Center
Country	Republic of Korea
Major Field	Medical AI

Educational Background

2013. M.S. in Engineering, Kwangwoon University
2018. Ph.D. in Engineering, Kwangwoon University

Professional Experience

2007-2010. **Researcher**, Institute of Radiation Medicine, Seoul National University
2008-2017. **Researcher**, Biomedical Engineering Research Division, National Cancer Center
2017-2018. **Researcher**, Gachon Medical Device Research Institute, Gachon University
2018-2024. **Research Professor**, College of Medicine, Gachon University
2024-Present. **Research Assistant Professor**, Gachon Biomedical & Convergence Institute, Gachon Gil Medical Center

Main Scientific Publications

Kim, Y. J., Kim, J. E., Park, Y., Chai, J. W., Kim, K. G., & Choi, J. Y. (2025). Deep Learning-Based Automatic Muscle Segmentation of the Thigh Using Lower Extremity CT Images. Diagnostics, 15(22), 2823.

Kim, Y. J., Lee, J., Park, Y. H., Yang, J., Kim, D., Kim, K. G., & Lee, D. H. (2025). Deep Learning Model for Volume Measurement of the Remnant Pancreas After Pancreaticoduodenectomy and Distal Pancreatectomy. Diagnostics, 15(22), 2834.

Choi, J. C., Kim, Y. J., Kim, K. G., & Kim, E. Y. (2025). An Analysis of the Efficacy of Deep Learning–Based Pectoralis Muscle Segmentation in Chest CT for Sarcopenia Diagnosis. Journal of Imaging Informatics in Medicine, 1-11.

Lee, Y. S., Kim, Y. J., Ryu, J. W., Lee, S. Y., & Kim, K. G. (2025). Automated neonatal hip ultrasound system for diagnosing developmental dysplasia of hips using assistive AI. Journal of Imaging Informatics in Medicine, 1-14.

Kang, Y. H., Kim, Y. J., & Kim, K. G. (2025). Comparative Analysis of U-Net and U-Net3+ for Retinal Exudate Segmentation: Performance Evaluation Across Regions. Journal of Imaging Informatics in Medicine, 1-9.

Hwang, S. H., Kim, Y. J., Cho, J. B., Kim, K. G., & Nam, D. H. (2025). Digital image enhancement using deep learning algorithm in 3D heads-up vitreoretinal surgery. Scientific Reports, 15(1), 18429.
